

**Subject:** Expo High Voltage, Parallevent Manifesta 9, De Mijlpaal, Heusden-Zolder

Dear Madam,  
Dear Sir,

We are very pleased to present to you our coming expo

High Voltage

*Where the sizzling power of electricity running 20 meters above the gallery clashes into the dark forces of coal veins 200 meters below.*

**During the summer of 2012, the exhibition 'High Voltage' at De Mijlpaal (Milestone Art Gallery) will present an antagonized clash of dark forces from the underground and blistering AC/DC splinters from above. The gallery, dominated by a high voltage pylon and earthed in a soil filled with coal veins, literary functions as an intermediary between the overwhelming and intriguing forces from soil and sky. Flickering, crackling electric power will be made tangible by a selection international contemporary artists. The dynamics of released energy will roll over the spectator eye with trembling convulsions and simmer once vision.**

**Participating artists:** Thorsten Fleisch (DE), Nicola Evangelisti (IT), Bart Lens, Sara Bomans, Remco Roes (NL), Kristof Vrancken, Ick Reuvis, Philippe van Gelooven, Timo of Luijck, Thomas Ruff (DE), Jeroen Maes, Raeywen Turner (NZ), Paul Fryer (UK), Mo Ramakers, Peter De Koninck, Tim Vets, Els Vos, Monique Thomaes, Peter Deleu.

**Expo** 3 June until 26 August 2012

**Cocktail** Sunday 3 June at 15h

**Introduction by** Mr. Marc Vandeput, deputy of economics, province of Limburg,

Please find in attachment the invitation, newsletter and some pictures.
